## **Annual Management Report of Fund Performance**

FOR THE PERIOD ENDED MARCH 31, 2021

#### CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of manager to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by calling 1-888-746-6344 (1-800-661-4578 if you live in Quebec) or by writing to us at 447 Portage Avenue, Winnipeg, Manitoba, R3B 3H5 (2001, boulevard Robert-Bourassa, bureau 2000, Montreal (Quebec), H3A 2A6 if you live in Quebec), or by visiting the SEDAR website at www.sedar.com.

# Management Discussion of Fund Performance

JUNE 8, 2021

This management discussion of Fund performance presents views of the portfolio management team about the significant factors and developments during the past year that have affected the Fund's performance and outlook.

Please read the *Caution Regarding Forward-looking Statements* located on the first page of this document.

#### **Investment Objective and Strategies**

The Fund aims to provide long-term capital growth and income by investing primarily in the debt and equity securities of Canadian issuers. The Fund may invest up to 50% of its assets in foreign securities.

#### Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for long-term investors looking for income with a growth component who have a low to medium tolerance for risk.

#### **Results of Operations**

#### **CHANGES IN NET ASSETS**

The Fund's net assets decreased by 0.3% during the period to \$222.1 million. This change was comprised primarily of gains from operations of \$38.8 million and a decrease of \$39.5 million due to net securityholder activity.

#### FEES AND EXPENSES

The management expense ratios (MERs) for all series are generally similar to the MERs for the period ended March 31, 2020, except for Series T JNL, which is higher due in part to changes in its applicable Harmonized Sales Tax rate. Total expenses paid also vary period to period as a result of changes in average assets in each series.

#### INVESTMENT PERFORMANCE

In accordance with National Instrument 81-106, the following comparison to one or more market indices has been included to help you understand the Fund's performance relative to the general performance of the markets. However, the portfolio management team cautions that the Fund's mandate may be different from the index or indices shown. For a description of the index or indices, see *Annual Compound Returns*. Also, it is important to note that investors cannot invest in an index. Indirect investments in an index are available; however, there are fees and transaction costs and other variables that will impact returns when investing in these products. Index returns included in the comparison below do not reflect these costs and variables.

For the returns of all series and for longer-term performance of the Fund, see the *Past Performance* section of this report. Performance will vary by series primarily because fees and expenses may differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. See *Series Information* for the annual expense rates for each series.

For the year ended March 31, 2021, the Series U securities returned 19.4% (after deducting fees and expenses paid by the Fund). In comparison, the S&P/TSX Composite Index (equity index) returned 44.2% and the FTSE Canada Universe Bond Index (fixed income index) returned 1.6%.

Canadian equities rebounded strongly over the period, reaching all-time highs after plunging earlier in 2020 over fears about the impact of the COVID-19 pandemic. Significant government and central bank stimulus both domestically and in the United States, Canada's largest trading partner, coupled with progress on vaccination programs in developed countries, led investors to factor higher levels of economic growth into equity valuations. The Bank of Canada maintained extraordinary monetary and fiscal policy measures, keeping its policy interest rate at 0.25% and making substantial bond purchases. Toward the end of the period, yields on 10-year government bonds increased to pre-pandemic levels.

Within the S&P/TSX Composite Index, consumer discretionary, information technology and health care were the strongest sectors, while communication services, consumer staples and utilities were the weakest.

The equity portion of the Fund performed in line with the equity index. Overweight exposure to the materials sector and stock selection in the energy, industrials and communication services sectors contributed to performance. Stock selection in the information technology, health care, financials and utilities sectors detracted from performance. Equity holdings in the United States also detracted.

The fixed income portion of the Fund outperformed the fixed income index, with underweight exposure to federal and provincial bonds contributing to performance.

#### **Recent Developments**

The portfolio management team expects financial market performance to be affected by the degree of the post-pandemic economic expansion and its impact on corporate earnings. The team believes that investors have already accounted for substantial economic and earnings recoveries. It expects an uneven recovery, in timing and in distribution, across market sectors and regions. This is partly because the pandemic has created challenges in global supply chains and logistics. With equity valuations at elevated levels, the team believes there are substantial risks associated with the timing, magnitude and duration of the recovery. These risks will be a primary focus when determining the Fund's asset allocation, geographic diversification and sector diversification.

The team reduced the Fund's exposure to government bonds in favour of equities over the year. The team also reduced holdings in the health care sector of the equity market, while investments in the financials sector, including preferred shares, were increased.

#### **Other Developments**

#### COVID-19

Governments worldwide have enacted various measures in seeking to combat the spread of the COVID-19 virus. These measures have led to significant volatility in equity markets and material disruption to businesses globally, resulting in an economic slowdown.

Ongoing uncertainty regarding the duration and long-term impact of the pandemic and the implementation of vaccination programs, as well as the efficacy of government and central bank monetary and fiscal interventions, may continue to affect the Fund's performance in future periods.

#### UPCOMING MERGER

IG Wealth Management proposes to merge this Fund into IG Mackenzie Mutual of Canada on or about June 18, 2021.

# **Related Party Transactions**

I.G. Investment Management, Ltd. is the Manager, Trustee and Portfolio Advisor of the Fund. The Fund is offered through the Consultants of Investors Group Financial Services Inc. and Investors Group Securities Inc., together referred to as the Distributors. The Manager, Portfolio Advisor, Distributors and Trustee are, indirectly, wholly owned subsidiaries of IGM Financial Inc.

The Fund paid a management fee to the Manager and Portfolio Advisor for management and portfolio advisory services (see *Management Fees*).

The Fund also paid the Manager an administration fee and in exchange the Manager paid the operating costs and expenses of the Fund, except for certain specified costs.

The Fund paid the Distributors a service fee as compensation for providing or arranging for the provision of services to the Fund, including the issue or allotment of securities. A portion of the service fee for Series C and Tc is rebated by the Distributors to the Fund, for distribution to Series C and Tc securityholders quarterly, as outlined in the Prospectus.

The Trustee is responsible for the overall direction of the affairs of the Fund. The Fund paid the Trustee a fee for its services.

See *Series Information* for the annual rates paid by each series (as a percent of average net assets) for these fees.

Securityholders in Series Tu and U also pay an advisory fee directly to the Distributors. This fee is not included in the Fund's expenses.

During the period, the Fund invested in other mutual funds managed by CI Investments Inc. There is no duplication of fees incurred by the Fund in connection with these investments.

The Manager has an investment in the Fund which, at March 31, 2021, was \$1,556 for Series T DSC, \$1,554 for Series T NL, \$1,554 for Series Tc, \$1,600 for Series T JDSC and \$1,593 for Series T JNL.

# Management Fees

The Fund pays a management fee, and this fee, paid by each series, is calculated as a percentage of the net asset value of the series at the close of each business day (see *Series Information* for rates payable by each series). Generally, management fees pay the costs incurred to provide investment advisory and management services, as well as distribution-related services provided by the Distributors.

However, in the case of Series U and Tu, securityholders pay the Distributors an advisory fee (separate from the management fee) directly. Therefore, the management fee in those series is used for investment advisory and management services only.

For all other retail series (i.e. which excludes Series F, P and S, if issued), approximately 63% of management fees paid during the period was used for investment advisory and management services, and approximately 37% related to distribution-related services. This may vary by series.

# Summary of Investment Portfolio

The largest positions of the Fund (up to 25) at the end of the period, and the major asset classes in which the Fund was invested, are indicated below. This summary of investment portfolio may change due to ongoing portfolio transactions. The Fund's summary of investment portfolio will be updated as at the end of the next quarter. Please see the front page for information about how it can be obtained.

The fee rates in the table above are rounded to two decimals.

Inception dates of the series are shown if within 10 years.

Clients in Series C and Tc are entitled to a full or partial rebate of the service fee based on their asset levels held in the Fund and in other IG Wealth Management Funds as outlined in the Fund's Prospectus.

# Past Performance

It is important to remember that past performance doesn't necessarily indicate future performance. The returns presented below:

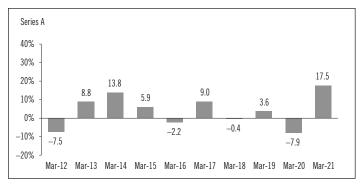

- assume that all distributions, except for fee rebates, are reinvested into the Fund;
- do not include sales charges, income taxes, optional expenses or advisory fees payable directly by securityholders in certain series, that reduce returns;
- show performance based on Canadian dollar returns; and
- show performance for each of the past 10 financial years, or since the series started. Financial years are for the 12 months ended March 31. Inception dates within these periods are shown in *Series Information*.

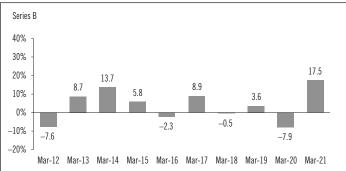

Performance during these periods may have been impacted by the following events:

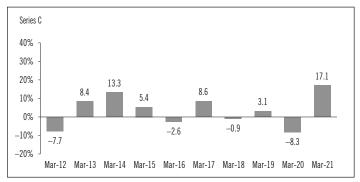

- Effective June 30, 2012, the annual management fee rate for Series A and B decreased by 0.20% to 1.95%.
- Effective June 30, 2012, the annual service fee rate for Series B decreased by 0.05% to 0.40%.
- Effective January 1, 2017, the annual management fee rate for Series Tu and U decreased by 0.10% to 0.85%.
- Effective January 1, 2017, the annual service fee rate for Series B, J NL, T NL and T JNL decreased by 0.10% to 0.30%.

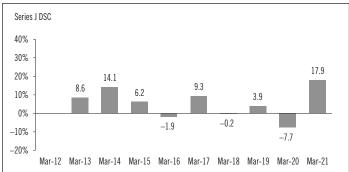

#### Year-by-Year Returns

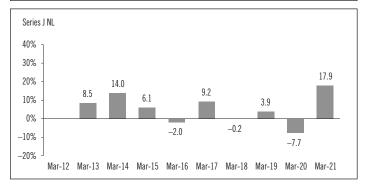

These bar charts show how much an investment in securities made on the first day of each financial year would have increased or decreased by the end of the respective period. For the first year of a series, the percentage shown will be the actual return of the series from its inception date. The charts illustrate how the Fund's performance has changed over time.

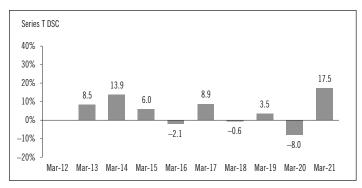

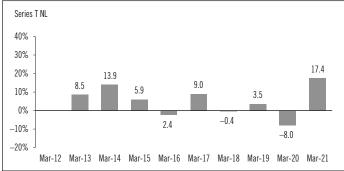

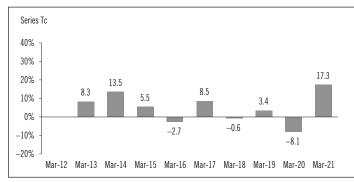

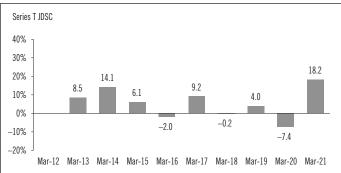

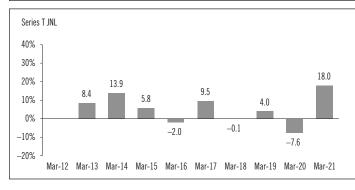

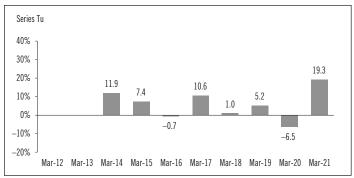

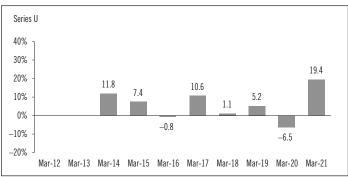

### **Annual Compound Returns**

The following table compares the historical annual compound returns for each series with the index (or indices) shown below, for the periods shown ending March 31, 2021.

For a discussion of the Fund's recent performance relative to the index (or indices), see *Results of Operations*.

<sup>&</sup>lt;sup>1</sup> These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the Notes to Financial Statements.

<sup>&</sup>lt;sup>2</sup> Net asset value and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the financial period. In the period a series is established, the financial information is provided from the date of inception to the end of the period.

<sup>1</sup> Management expense ratio (MER) is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes, and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where a Fund directly or indirectly via derivative contract invests in securities of another fund (including exchange-traded funds or ETFs), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. Certain expenses that are non-recurring and/or otherwise uncertain as to their future timing and amount have not been annualized.

The MERs presented for Series C and Tc represent the maximum MER applicable to an account because service fee rebates have not been offset against service fees. Clients in Series C and Tc are entitled to a full or partial rebate of service fees based on their asset levels held in the Fund and in other IG Wealth Management Funds as outlined in the Fund's Prospectus. The rebate is distributed as a return of capital distribution to securityholders and is required to be reinvested in additional Series C and Tc securities.

- <sup>2</sup> The trading expense ratio (TER) represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where a Fund invests in securities of another fund (including exchange-traded funds or ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.
- <sup>3</sup> The Fund's portfolio turnover rate indicates how actively the Fund's Portfolio Advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. Generally, the higher a Fund's portfolio turnover rate in a period, the greater the trading costs payable by it in the period. Generally, the higher a Fund's portfolio turnover rate in a period, the greater the trading costs payable by it in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund. Transactions incurred to realign the Fund's portfolio after a fund merger, if any, are excluded from the portfolio turnover rate.
