IPROFILE™ PORTFOLIO — GLOBAL EQUITY BALANCED

Annual Management Report of Fund Performance

For the Year Ended March 31, 2026

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by calling 1-888-746-6344 (1-800-661-4578 if you live in Quebec) or by writing to us at 447 Portage Avenue, Winnipeg, Manitoba, R3B 3H5 (1360, boulevard René-Lévesque Ouest, Suite 300, Montreal (Quebec), H3G 2W4 if you live in Quebec), or by visiting the SEDAR+ website at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's most recent Simplified Prospectus and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website at www.ig.ca.

References to "Advisor" or "Advisors" mean "Representative" or "Representatives" in Quebec.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of manager to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

June 8, 2026

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the Fund's performance and outlook in the year ended March 31, 2026 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "IGIM" and "the Manager" refer to I.G. Investment Management, Ltd., the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read *A Note on Forward-Looking Statements* on the first page of this document.

Investment Objective and Strategies

The Fund intends to provide investors with a diversified portfolio solution that provides long-term capital appreciation. Under normal market conditions, exposures will generally be kept within 5% to 35% fixed income/real property and 65% to 85% equity. In addition, the Fund may also invest in other asset classes.

Risk

The risks of the Fund remain as discussed in the Fund's most recent Simplified Prospectus.

The Fund is suitable for long-term investors looking for capital appreciation who wish to hold a diversified portfolio in a single investment and who have a low to medium tolerance for risk.

Results of Operations

Investment Performance

The performance of all series in the current and previous periods is shown in the *Past Performance* section of the report. Performance will vary by series primarily because fees and expenses differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.

For the year ended March 31, 2026, the Series I securities returned 13.4% (after deducting fees and expenses paid by the Fund). In comparison, the FTSE Canada Universe Bond Index returned 0.8%, the S&P/TSX Composite Index returned 34.8%, the S&P 500 Index returned 14.0% and the MSCI EAFE (Net) Index returned 17.4%. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Global equities delivered significant gains over the period. Markets recovered rapidly from initial tariff-driven volatility, supported by investment in artificial intelligence infrastructure and resilient corporate earnings, but experienced renewed pressure in March 2026 as energy prices spiked. Canadian equities advanced amid resilient commodity prices and a surge in gold prices. Canadian fixed income markets were influenced by weak economic growth, tariff developments and shifting monetary policy as the Bank of Canada reduced its policy rate twice.

Within the S&P/TSX Composite Index, materials, energy and financials were the best-performing sectors, while real estate, information technology and industrials were the weakest.

Within the S&P 500 Index, energy, communication services and information technology were the best-performing sectors in Canadian dollar terms, while financials, health care and real estate were the weakest.

Within the MSCI EAFE (Net) Index, Austria, Portugal and Norway were the best-performing markets in Canadian dollar terms, while Denmark, Germany and New Zealand were the weakest. The energy, utilities and materials sectors were the strongest performers, while consumer discretionary, consumer staples and communication services were the weakest.

The Fund outperformed the FTSE Canada Universe Bond Index because of its exposure to equities. The Fund underperformed the S&P/TSX Composite Index, the S&P 500 Index, and the MSCI EAFE (Net) Index, mainly because of its allocation to fixed income investments.

In absolute terms, iProfile Canadian Equity Private Pool, representing about 17% of net assets at the end of the period, contributed the most to Fund performance. Mackenzie – IG Low Volatility U.S. Equity Pool, representing about 4% of net assets, detracted the most from performance.

Net Assets

The Fund's net assets increased by 36.1% during the period to $4.4 billion. This change was composed primarily of $447.7 million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and an increase of $714.7 million due to net securityholder activity (including sales, redemptions and cash distributions).

Fees and Expenses

The management expense ratio ("MER") for each series during the year ended March 31, 2026, was generally similar to the MER for the year ended March 31, 2025. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the *Financial Highlights* section of this report.

Recent Developments

The portfolio management team believes that energy prices will be critical to financial market performance in the future. In the team's view, a credible path toward de-escalation of the Middle East conflict, which has resulted in surging oil prices, would permit investor attention to return to the constructive economic momentum that emerged in early 2026. However, the team believes a prolonged Middle East disruption could result in sustained inflation uncertainty and elevated financial market volatility. The team expects markets in regions tied to global supply constraints to demonstrate relative resilience, while markets in regions more dependent on energy imports could remain highly sensitive to energy price fluctuations. The team believes asset valuations beyond the United States appear more attractive, offering potential for meaningful portfolio diversification. It expects central banks to remain a focal point for markets as policymakers assess the impacts of higher energy costs on consumers and the implications for the pace and durability of future policy rate reductions.

Other Developments

Effective July 1, 2025, the Distributors, Investors Group Financial Services Inc. and Investors Group Securities Inc., merged into one single, dually registered dealer, IG Wealth Management Inc. (in Quebec, IG Wealth Management Inc., a firm in financial planning) that operates as an investment dealer with a dedicated mutual fund division.

Related Party Transactions

I.G. Investment Management, Ltd. is the Manager, Trustee and Portfolio Advisor of the Fund. The Fund is offered through the Advisors of IG Wealth Management Inc., the Distributor. The Manager, Portfolio Advisor, Distributor and Trustee are, indirectly, wholly owned subsidiaries of IGM Financial Inc.

The Fund paid a fund advisory fee to the Portfolio Advisor for investment management and portfolio advisory services (see *Management Fees*).

The Fund also paid the Manager an administration fee for administrative services.

The Trustee is responsible for the overall direction of the affairs of the Fund. The Fund paid the Trustee a fee for its services.

See *Fund Formation and Series Information* for the annual rates paid by each series (as a percentage of average net assets) for these fees.

Securityholders in Series F and Series FT also pay an advisory fee directly to the Distributor. This fee is not included in the Fund's expenses.

During the period, the Fund invested in other funds also managed by the Manager or affiliates of the Manager. At March 31, 2026, the Fund had $146.2 million (3.3% of the Fund's NAV) invested in underlying funds managed by Mackenzie. The Manager relied on standing instructions approved by the IG Wealth Management Funds Independent Review Committee for the execution of all such transactions.

Investment, if any, in unlisted open-ended funds managed by the Manager and/or affiliates of the Manager will be in series that do not pay fees. The exchange-traded funds (ETFs) into which the Fund may invest may have their own fees and expenses which reduce the value of the ETF. Generally, the Manager has determined that fees paid by an ETF are not duplicative with the fees paid by the Fund. However, where the ETF is managed by Mackenzie Financial Corporation, the ETF may distribute a fee rebate to the Fund to offset fees paid within the ETF.

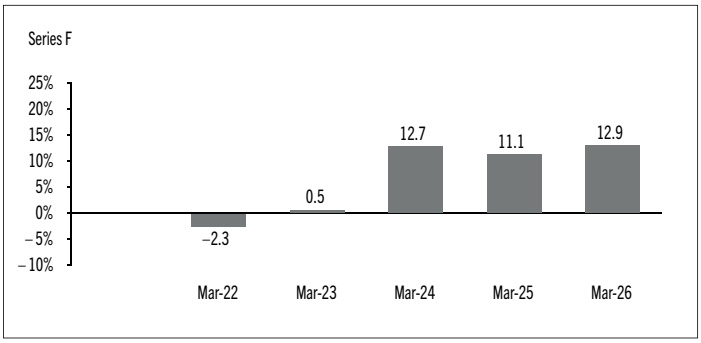
Past Performance

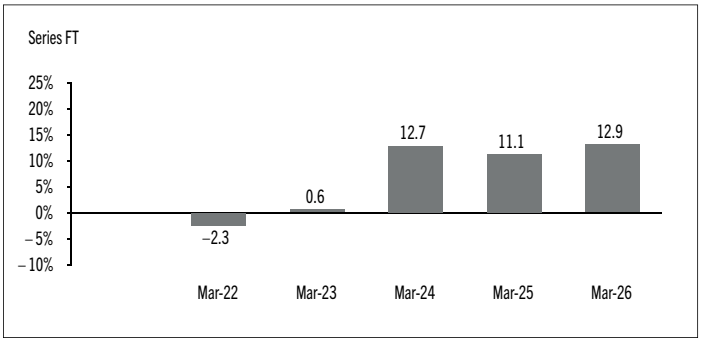
The Fund's performance information assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

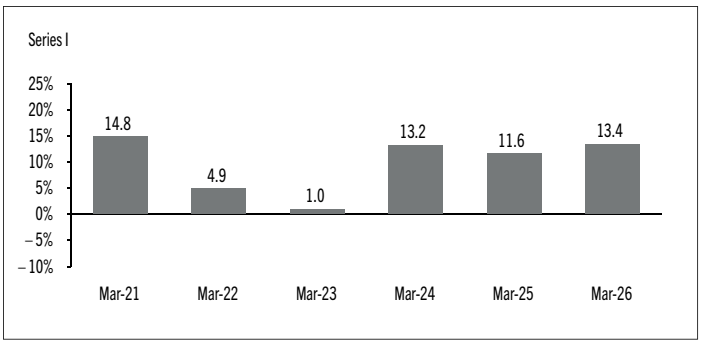
If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

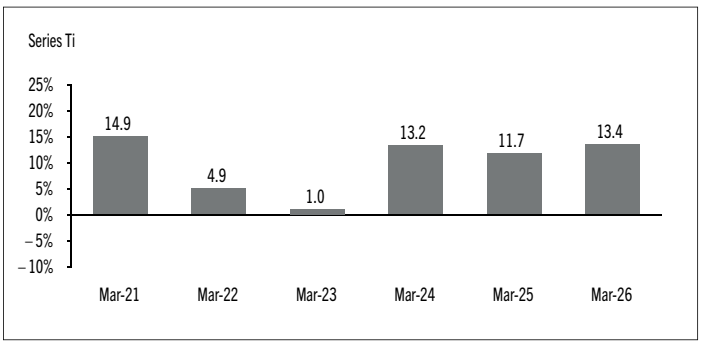
Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.









Annual Compound Returns

The following table compares the historical annual compound total returns for each series of the Fund with the relevant index or indices shown below for each of the periods ended March 31, 2026. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.

All index returns are calculated in Canadian dollars on a total return basis, meaning that all dividend payments, interest income accruals and interest payments are reinvested.

Percentage Return:[1]	**1 Yr**	**3 Yr**	**5 Yr**	**10 Yr**	**Since Inception**[2]
Series F	12.9	12.3	n/a	n/a	7.3
Series FT	12.9	12.2	n/a	n/a	7.3
Series I	13.4	12.7	8.7	n/a	10.1
Series Ti	13.4	12.7	8.7	n/a	10.1
FTSE Canada Universe Bond Index	0.8	3.5	0.7	n/a	Note 3
S&P/TSX Composite Index	34.8	21.2	15.2	n/a	Note 4
S&P 500 Index	14.0	19.5	14.4	n/a	Note 5
MSCI EAFE (Net) Index	17.4	14.7	10.1	n/a	Note 6

The FTSE Canada Universe Bond Index is a broad measure of Canadian bonds with terms to maturity of more than one year. It includes federal, provincial, municipal and corporate bonds rated "BBB" or higher.

The S&P/TSX Composite Index is a capitalization weighted index that represents some of the largest float adjusted stocks trading on the Toronto Stock Exchange.

The S&P 500 Index is a market capitalization weighted index of 500 widely held securities, designed to measure broad U.S. equity performance.

The MSCI EAFE (Net) Index represents large- and mid-cap equity performance across 21 developed markets, excluding the United States and Canada. Net total returns are calculated after the deduction of withholding tax from the foreign income and dividends of its constituents.

(1) The percentage return differs for each series because the management fee rate and expenses differ for each series.

(2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.

(3) The return of the FTSE Canada Universe Bond Index since inception for each applicable series is as follows: Series F 0.3%, Series FT 0.3%, Series I 0.0%, Series Ti 0.0%.

(4) The return of the S&P/TSX Composite Index since inception for each applicable series is as follows: Series F 14.0%, Series FT 14.0%, Series I 17.2%, Series Ti 17.2%.

(5) The return of the S&P 500 Index since inception for each applicable series is as follows: Series F 12.7%, Series FT 12.7%, Series I 15.9%, Series Ti 15.9%.

(6) The return of the MSCI EAFE (Net) Index since inception for each applicable series is as follows: Series F 9.3%, Series FT 9.3%, Series I 11.5%, Series Ti 11.5%.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

Net asset value per security ($)	10.31	10.01	9.83	9.36	10.27

(1) This information is provided as at the end of the fiscal period shown.

(2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.

(3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

The Fund pays a management/advisory fee, and this fee, paid by each series, is calculated as a percentage of the net asset value of the series at the close of each business day (see *Fund Formation and Series Information* for rates payable by each series). The management/advisory fees pay the costs incurred to provide investment advisory and management services.

Securityholders in the iProfile Program also pay a program advisory fee directly to the Distributor. This fee is not included in the Fund's expenses. Distribution-related services were paid for out of the program advisory fee and other revenue sources.

Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's most recent Simplified Prospectus.

Date of Formation: May 29, 2020

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed under *Financial Highlights*.

Series F and Series FT securities are offered to investors investing a minimum of $50 who hold their investments in an IG Advisory account. Investors in Series FT securities also wish to receive a steady, monthly cash flow from their investment.

Series I and Series Ti securities are offered to investors investing a minimum of $200 who hold their investments in an iProfile account with an initial minimum household investment of $250,000 through the iProfile Program. Investors in Series Ti securities also wish to receive a steady, monthly cash flow from their investment.

Series	Inception/ Reinstatement Date	Management/ Advisory fee (%)	Administration fee (%)	Trustee fee (%)
