

Interim Management Report of Fund Performance

For the Six-Month Period Ended September 30, 2022

This Interim Management Report of Fund Performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You may obtain a copy of the interim financial report or annual financial statements, at no cost, by calling 1-888-746-6344 (1-800-661-4578 if you live in Quebec) or by writing to us at 447 Portage Avenue, Winnipeg, Manitoba, R3B 3H5 (2001, boulevard Robert-Bourassa, bureau 2000, Montreal (Quebec), H3A 2A6 if you live in Quebec), or by visiting the SEDAR website at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus, Annual Information Form and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website at www.ig.ca.

References to "Consultant" or "Consultants" mean "Representative" or "Representatives" in Quebec.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of manager to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

IG MACKENZIE REAL PROPERTY FUND

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2022

Management Discussion of Fund Performance

November 14, 2022

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the Fund's performance and outlook in the six-month period ended September 30, 2022 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "IGIM" and "the Manager" refer to I.G. Investment Management, Ltd., the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read *A Note on Forward-Looking Statements* on the first page of this document.

Results of Operations

Investment Performance

In accordance with National Instrument 81-106, the following comparison to one or more market indices has been included to help you understand the Fund's performance relative to the general performance of the markets. However, the portfolio management team cautions that the Fund's mandate may be different from the index or indices shown. Also, it is important to note that investors cannot invest in an index. Indirect investments in an index are available; however, there are fees and transaction costs and other variables that will impact returns when investing in these products. Index returns included in the comparison below do not reflect these costs and variables.

For the returns of all series and for longer-term performance of the Fund, see the *Past Performance* section of this report. Performance will vary by series primarily because fees and expenses may differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. See *Series Information* for the annual expense rates for each series.

For the six-month period ended September 30, 2022, the Fund's Series F (formerly Series U) securities returned 6.6% (after deducting fees and expenses paid by the Fund). In comparison, the FTSE Canada Universe Bond Index returned -5.2%.

The Fund's total net return was positive over the period. Results from the Fund's holdings of industrial properties remained strong as demand and rental rates held firm. Retail properties bounced back from earlier pandemic-related issues, and because most are food-anchored neighbourhood shopping centers they are poised to deliver moderate growth in the future. Office properties remain under pressure as employers continue to experiment with return-to-work policies for employees. Multifamily residential properties are meeting expectations with stable occupancy and rental rates.

The fair value of mortgages payable was \$1,074 million at the end of the period, representing 24.0% of Fund net assets. Outstanding mortgage principal ranged from \$902 million to \$1,152 million. Mortgages payable consisted of term mortgages with interest rates ranging from 2.2% to 6.0% and a weighted average interest rate of 3.6%.

The Fund maintained a high proportion of assets in money market instruments and government bond investments. The Fund's cash position increased over the period as a result of new mortgage financing. This ensures adequate liquidity to provide financial flexibility.

Net Assets

The Fund's net assets decreased by 1.4% during the period to \$4.5 billion. This change was composed primarily of \$306.0 million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and a decrease of \$369.2 million due to net securityholder activity (including sales, redemptions and cash distributions).

Fees and Expenses

The annualized management expense ratio ("MER") for each series during the period ended September 30, 2022, was generally similar to the MER for the year ended March 31, 2022. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the *Financial Highlights* section of this report.

Recent Developments

Properties of all types experienced better-than-average tenant retention and occupancy rates.

There were no property acquisitions by the Fund and only a small industrial property sale during the period. Two industrial properties are under construction in Ontario and two residential properties are under construction in Winnipeg and Edmonton. A total of \$69 million was invested in these projects during the period.

Amid rising interest rates and a slowing economy, the portfolio management team is concerned about declining property market values that are likely to erode recent Fund gains. However, the team believes the Fund is well positioned for the current economic environment and that the Fund's real property assets remain highly attractive as investors search for yield, diversification and protection against inflation.

Related Party Transactions

I.G. Investment Management, Ltd. is the Manager, Trustee and Portfolio Advisor of the Fund. The Fund is offered through the Consultants of Investors Group Financial Services Inc. and Investors Group Securities Inc., together referred to as the Distributors. Investors Group Trust Co. Ltd. holds legal title (as bare trustee) to certain properties held on behalf of the Trustee and the Fund. The Trustee and the Fund have agreed to indemnify Investors Group Trust Co. Ltd. for holding title to these properties as bare trustee. The Manager, Portfolio Advisor, Distributors, Trustee and the bare trustee are, indirectly, wholly owned subsidiaries of IGM Financial Inc.

The following sub-advisor provided investment services for the non-real property assets of the Fund:

- Mackenzie Financial Corporation

Mackenzie Financial Corporation is a wholly owned subsidiary of IGM Financial Inc.

The Fund paid a management fee to the Manager and Portfolio Advisor for management and portfolio advisory services (see *Management Fees*).

The Fund also paid the Manager an administration fee and in exchange the Manager paid the operating costs and expenses of the Fund, except for certain specified costs.

The Fund paid the Distributors a service fee as compensation for providing or arranging for the provision of services to the Fund, including the issue or allotment of securities. A portion of the service fee for Series C is rebated by the Distributors to the Fund, for distribution to Series C securityholders quarterly, as outlined in the Prospectus.

IG MACKENZIE REAL PROPERTY FUND

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2022

The Trustee is responsible for the overall direction of the affairs of the Fund. The Fund paid the Trustee a fee for its services.

See *Series Information* for the annual rates paid by each series (as a percentage of average net assets) for these fees.

Securityholders in Series F (formerly Series U) also pay an advisory fee directly to the Distributors. This fee is not included in the Fund's expenses.

GWL Realty Advisors Inc. (GWLRA) and The Canada Life Assurance Company, affiliates of IGM Financial Inc., are tenants or subtenants of properties owned by the Fund. Rental revenue received from these companies amount to \$805,000 for the period ended September 30, 2022.

As at September 30, 2022, mortgages valued at \$124,563,000 have been provided by companies which are affiliates of IGM Financial Inc.

GWLRA is a property and leasing manager to several of the Fund's properties. Total management fees paid to GWLRA amounted to \$1,291,000 for the period ended September 30, 2022. In addition, the Fund also paid GWLRA \$90,000 for the period ended September 30, 2022 for leasing commissions and other services related to the investment properties they manage.

The Fund holds a 50% ownership in a Montreal office property and 25% ownership in a Toronto office property co-owned in joint operation with two funds sponsored by The Canada Life Assurance Company; the Canadian Real Estate Investment Fund No.1 (35%), and London Life Real Estate Fund (15%).

Transactions with related parties are in the normal course of operations and have been recorded at fair value.

Since the inception of the IG Wealth Management Funds Independent Review Committee (IRC), acquisitions of properties where affiliates of the Managers are property managers, co-owners, tenants, subtenants or lenders (if a mortgage is to be assumed), as well as new or renewed leasing agreements with affiliates of the Manager, are reviewed on a case by case basis and referred to the IRC for review as required. The IRC has, in connection with the transactions it has reviewed, including the property management agreement with GWLRA, provided a recommendation to the Manager that the transactions achieved a fair and reasonable result for the Fund.

Certain other investment funds, distributed by IG Wealth Management, and other qualified investors may invest in Series P of this Fund. As at September 30, 2022, this series comprised approximately 68.1% of the Fund's net assets. The Manager relied on standing instructions approved by the IG Wealth Management Funds Independent Review Committee for the execution of all such transactions, which are based on the net asset value per security determined in accordance with the stated policies of the Fund on each transaction day. Investments by other investment funds in the Fund increase the risk of large redemption or purchase orders, which could result in larger than normal cash positions in the Fund for short periods of time. This could have an impact on the Fund's operations. However, the Manager uses various strategies to minimize the potential dilutive impact associated with large cash positions. These strategies may include transferring securities in-kind where possible, utilizing ETFs to maintain market exposure in lieu of cash and spreading transactions in smaller increments over a period of time.

Past Performance

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Series Information*.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's unaudited interim financial statements and audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

The Fund pays a management fee, and this fee, paid by each series, is calculated as a percentage of the net asset value of the series at the close of each business day (see *Series Information* for rates payable by each series). Generally, management fees pay the costs incurred to provide investment advisory and management services, as well as distribution-related services provided by the Distributors.

However, in the case of Series F, securityholders pay the Distributor an advisory fee (separate from the management fee) directly. Therefore, the management fee in that series is used for investment advisory and management services only.

For all other retail series (i.e. those that exclude Series R, P and S, if issued), approximately 61% of management fees paid during the period was used for investment advisory and management services, and approximately 39% related to distribution-related services. This may vary by series.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2022

Series Information

Series	Inception/ Reinstatement Date	Management fee (%)	Service fee (%)	Administration fee (%)	Trustee fee (%)
Series A	n/a	2.00	0.30	0.16	0.05
Series B	01/16/2017	2.00	0.30	0.16	0.05
Series C	n/a	2.00	up to 0.50	0.13	0.05
Series F	07/12/2013	0.90	–	0.16	0.05
Series J DSC	07/13/2012	1.75	0.30	0.16	0.05
Series J NL	01/16/2017	1.75	0.30	0.16	0.05
Series P	n/a	–	–	–	–

The fee rates in the table above are rounded to two decimals.

Inception dates of the series are shown if within 10½ years.

Clients in Series C are entitled to a full or partial rebate of the service fee based on their asset levels held in the Fund and in other IG Wealth Management Funds as outlined in the Fund's Prospectus.

Prior to July 11, 2022, Series F were known as Series U.
