
IG Core Portfolio – Growth

Interim Management Report of Fund Performance

FOR THE SIX-MONTH PERIOD ENDED SEPTEMBER 30, 2020

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Portfolio Fund, including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Portfolio Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Portfolio Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Portfolio Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, catastrophic events and outbreaks of disease or pandemics (such as COVID-19).

We stress that the above mentioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions and we urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Portfolio Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

CAUTION REGARDING FUTURE PERFORMANCE

Sales commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the Portfolio Fund's offering documents before investing. The indicated rates of return are the historical annual compounded total returns including changes in security value and reinvestment of all distributions (except for fee rebates) and do not take into account sales, redemption, distribution or optional charges, advisory fees payable directly by securityholders in certain series, or income taxes payable by any investor that would have reduced returns. Mutual funds are not guaranteed. Their values change frequently and past performance may not be repeated.

This interim Management Report of Fund Performance contains financial highlights, but does not contain the complete interim financial report or audited annual financial statements of the investment fund. If the interim financial report of your investment fund did not accompany the mailing of this report, you may receive a copy of it or the audited annual financial statements, or annual Management Report of Fund Performance, at your request, and at no cost, by calling 1-888-746-6344 (1-800-661-4578 if you live in Québec) or by writing to us at 447 Portage Avenue, Winnipeg, Manitoba, R3B 3H5 (2001, boulevard Robert-Bourassa, bureau 2000, Montréal (Québec), H3A 2A6 if you live in Québec), or by visiting our website at www.ig.ca or SEDAR at www.sedar.com.

Securityholders may also use one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Every effort has been made to ensure that the information contained in this Report is accurate as of September 30, 2020 (except when stated otherwise), however, the Portfolio Fund cannot guarantee the accuracy or the completeness of this material. Please refer to the Portfolio Fund's Prospectus and audited annual financial statements for more information.

References to “Consultant” or “Consultants” mean “Representative” or “Representatives” in Québec.

For current net asset values per security for the Portfolio Fund and for more recent information on general market events, please visit our website at www.ig.ca.

Management Discussion of Fund Performance

NOVEMBER 12, 2020

This management discussion of fund performance presents views of the portfolio management team about the significant factors and developments during the past six months that have affected the Portfolio Fund's performance and outlook since March 31, 2020, the Portfolio Fund's most recent fiscal year-end. This report should be read in conjunction with the annual Management Report of Fund Performance for the year ended March 31, 2020.

Please read the *Caution Regarding Forward-looking Statements* located on the first page of this document.

Results of Operations

CHANGES IN NET ASSETS

The Portfolio Fund's net assets increased by 24.1% during the period to \$1.3 billion. This change was comprised primarily of gains from operations of \$222.7 million and an increase of \$38.6 million due to net securityholder activity.

FEES AND EXPENSES

The management expense ratios (MERs) for all series are generally similar to the MERs for the 12-month period ended March 31, 2020. Total expenses paid vary period to period mainly as a result of changes in average assets in each series.

INVESTMENT PERFORMANCE

In accordance with National Instrument 81-106, the following comparison to broad-based indices has been included to help you understand the Portfolio Fund's performance relative to the general performance of the markets. However, the portfolio management team cautions that the Portfolio Fund's mandate may be different from the indices shown. Also, it is important to note that investors cannot invest in an index. Indirect investments in an index are available; however, there are fees and transaction costs and other variables that will impact returns when investing in these products. Index returns included in the comparison below do not reflect these costs and variables. In addition, unlike the index, the Portfolio Fund may be subject to valuation adjustments as the result of non-North American equities held by the Underlying Funds in which the Portfolio Fund invests, as outlined in the Underlying Funds' valuation policies. A fair value adjustment can either positively or negatively impact the Portfolio Fund's rate of return.

For the returns of all series and for longer-term performance of the Portfolio Fund, see the *Past Performance* section of this report. Performance will vary by series primarily because fees and expenses may differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. See *Series Information* for the annual expense rates for each series.

For the six-month period ended September 30, 2020, the Series B securities returned 19.7% (after deducting fees and expenses paid by the Portfolio Fund). In comparison, the S&P/TSX Composite Index Total Return returned 22.5%, the S&P 500 Index Total Return \$ CAD returned 24.0% and the MSCI EAFE Index Total Return (Net) \$ CAD returned 13.7%.

Despite positive performance from all its underlying funds, the Portfolio Fund underperformed the S&P/TSX Composite Index Total Return and the S&P 500 Index Total Return \$ CAD due in part to its exposure to international equities. Correspondingly, the Portfolio Fund outperformed the MSCI EAFE Index Total Return (Net) \$ CAD due in part to its exposure to North American equities.

Mackenzie – IG U.S. Equity Pool, representing about 20% of net assets at period-end, contributed the most to the Portfolio Fund's performance, and Mackenzie Global Macro Fund, representing about 1% of net assets at period-end, contributed the least to the Portfolio Fund's performance.

Recent Developments

The S&P/TSX Composite Index Total Return advanced over the period. Share prices rose on expectations of an economic recovery. Equity valuations were supported by record-low bond yields. All market sectors except health care moved higher. Gains were strongest in the information technology sector, and were led by shares of Shopify Inc., which more than doubled in value during the period. The materials sector was lifted by gold company shares as bullion climbed above U.S.\$2,000 per ounce for the first time. The communication services, energy and health care sectors were the most significant underperformers.

The S&P 500 Index Total Return \$ CAD and MSCI EAFE Index Total Return (Net) \$ CAD also advanced. All S&P 500 market sectors except energy moved higher. Gains were strongest in the consumer discretionary and information technology sectors. These sectors were led by mega-capitalization beneficiaries of increased online business activity. The materials sector was particularly strong. Energy was the weakest sector as oil prices remained below pre-COVID-19 levels. Sectors sensitive to interest rate changes underperformed as bond yields fell. Asian markets generally underperformed, except those in countries with strong economic ties to China. Japan slightly underperformed the index. Most European markets outperformed. Spain – one of the epicentres of Europe's COVID-19 outbreak – was among the weakest markets. U.K. equities underperformed as Britain and the European Union struggled to come to terms on a post-Brexit trade relationship.

Other Developments

COVID-19

The duration and long-term impact of COVID-19 on businesses and markets, and the extent of additional economic relief measures which may be offered by some governments and central banks, are unknown at the reporting date. This uncertainty means it is impossible to reliably estimate the impact on the financial results and position of the Portfolio Fund in future periods.

Related Party Transactions

I.G. Investment Management, Ltd. is the Manager, Trustee and Portfolio Advisor of the Portfolio Fund. The Portfolio Fund is offered through the Consultants of Investors Group Financial Services Inc. and Investors Group Securities Inc., together referred to as the Distributors. The Manager, Portfolio Advisor, Distributors and Trustee are, indirectly, wholly owned subsidiaries of IGM Financial Inc.

The Portfolio Fund paid a management fee to the Manager and Portfolio Advisor for management and portfolio advisory services (see *Management Fees*).

The Portfolio Fund also paid the Manager an administration fee and in exchange the Manager paid the operating costs and expenses of the Portfolio Fund, except for certain specified costs.

The Portfolio Fund paid the Distributors a service fee as compensation for providing or arranging for the provision of services to the Portfolio Fund, including the issue or allotment of securities. A portion of the service fee for Series C is rebated by the Distributors to the Portfolio Fund, for distribution to Series C securityholders quarterly, as outlined in the Prospectus. The Portfolio Fund also paid the Distributors a distribution fee in recognition for distributing the Portfolio Funds to all IG Wealth Management clients, including those who do not meet the minimum investment criteria for other IG Wealth Management Funds.

The Trustee is responsible for the overall direction of the affairs of the Portfolio Fund. The Portfolio Fund paid the Trustee a fee for its services.

See *Series Information* for the annual rates paid by each series (as a percent of average net assets) for these fees.

Securityholders in Series U also pay an advisory fee directly to the Distributors. This fee is not included in the Portfolio Fund's expenses.

During the period, the Portfolio Fund invested in other funds also managed by the Manager or affiliates of the Manager. The Manager relied on standing instructions approved by the IG Wealth Management Funds Independent Review Committee for the execution of all such transactions.

Investment, if any, in unlisted open-ended funds managed by the Manager and/or affiliates of the Manager will be in series that do not pay fees. The exchange-traded funds (ETFs) into which the Portfolio Fund may invest may have their own fees and expenses which reduce the value of the ETF. Generally, the Manager has determined that fees paid by an ETF are not duplicative with the fees paid by the Portfolio Fund. However, where the ETF is managed by Mackenzie Financial Corporation, the ETF may distribute a fee rebate to the Portfolio Fund to offset fees paid within the ETF.

Certain other investment funds, distributed by IG Wealth Management, and other qualified investors may invest in Series S of this Portfolio Fund. As at September 30, 2020, this series comprised approximately 0.9% of the Portfolio Fund's net assets. The Manager relied on standing instructions approved by the IG Wealth Management Funds Independent Review Committee for the execution of all such transactions, which are based on the net asset value per security determined in accordance with the stated policies of the Portfolio Fund on each transaction day. Investments by other investment funds in the Portfolio Fund increase the risk of large redemption or purchase orders, which could result in larger than normal cash positions in the Portfolio Fund for short periods of time. This could have an impact on the Portfolio Fund's operations. However, the Manager uses various strategies to minimize the potential dilutive impact associated with large cash positions. These strategies may include transferring securities in-kind where possible, utilizing ETFs to maintain market exposure in lieu of cash and spreading transactions in smaller increments over a period of time.

The Manager has an investment in the Portfolio Fund which, at September 30, 2020, was \$1,066 for Series J DSC-RDSP, \$1,066 for Series J NL-RDSP, \$1,193 for Series T DSC, \$1,198 for Series T NL, \$1,192 for Series Tc, \$1,198 for Series T JDSC, \$1,202 for Series T JNL and \$1,228 for Series Tu.

Management Fees

The Portfolio Fund pays a management fee, and this fee, paid by each series, is calculated as a percentage of the net asset value of the series at the close of each business day (see *Series Information* for rates payable by each series). Generally, management fees pay the costs incurred to provide investment advisory and management services, as well as distribution-related services provided by the Distributors.

However, in the case of Series U and Tu, securityholders pay the Distributors an advisory fee (separate from the management fee) directly. Therefore, the management fee in those series is used for investment advisory and management services only.

For all other retail series (i.e. which excludes Series F, P and S, if issued), approximately 70% of management fees paid during the period was used for investment advisory and management services, and approximately 30% related to distribution-related services. This may vary by series.

Summary of Investment Portfolio

The largest positions of the Portfolio Fund (up to 25) at the end of the period, and the Portfolio Fund's investment mix are indicated below. This summary of investment portfolio may change due to ongoing portfolio transactions. The Portfolio Fund's summary of investment portfolio will be updated as at the end of the next quarter. Please see the front page for information about how it can be obtained.

The Management Report of Fund Performance, Prospectus, Financial Statements and other information for each of the Underlying Funds in which the Portfolio Fund invests are available upon request, and at no cost, by using one of the methods located on the front of this document.

Series U	07/12/2013	0.77	0.10	-	0.17	0.04

The fee rates in the table above are rounded to two decimals.

Inception dates of the series are shown if within 10½ years.

Clients in Series C are entitled to a full or partial rebate of the service fee based on their asset levels held in the Portfolio Fund and in other IG Wealth Management Funds as outlined in the Portfolio Fund's Prospectus.

Past Performance

It is important to remember that past performance doesn't necessarily indicate future performance. The returns presented below:

- assume that all distributions, except for fee rebates, are reinvested into the Portfolio Fund;
- do not include sales charges, income taxes, optional expenses or advisory fees payable directly by securityholders in certain series, that reduce returns;
- show performance based on Canadian dollar returns; and
- show performance for the six-month period ended September 30, 2020 and for each of the past 10 financial years, or since the series started. Financial years are for the 12 months ended March 31. Inception dates within these periods are shown in *Series Information*.

Performance during these periods may have been impacted by the following events:

- In 2011, 2013, 2014 and 2015, changes were made to the allocation and/or selection of Underlying Funds by the Portfolio Fund.
- Effective July 1, 2010, the administration fees for Series A and B decreased by 0.03% to 0.18%.
- Effective June 30, 2012, the annual distribution fee rate for Series A, A-RDSP, B, B-RDSP and C decreased by 0.05% to 0.10%.
- Effective June 30, 2012, the annual service fee rate for Series B and B-RDSP decreased by 0.05% to 0.40%.
- Effective June 30, 2012, fees paid by some of the Underlying Funds in which the Portfolio Fund invests were reduced, lowering the Portfolio Fund's MERs.
- Effective January 1, 2017, the annual management fee rate for Series S decreased by 0.25% to 1.69% and for Series U the rate decreased by 0.10% to 0.841%.
- Effective January 1, 2017, the annual service fee rate for Series B, B-RDSP and J NL decreased by 0.10% to 0.30%.
- Effective September 1, 2017, the annual management fee rate for Series A, A-RDSP, B, B-RDSP and C decreased by 0.071% to 1.87%, for Series J DSC and J NL the rate decreased by 0.071% to 1.62%, for Series S the rate decreased by 0.07% to 1.62% and for Series U the rate decreased by 0.071% to 0.77%.
- Effective September 1, 2017, the annual administration fee rate for A, A-RDSP, B, B-RDSP, C, J DSC, J NL and U decreased by 0.01% to 0.17%.
- Effective September 1, 2017, the annual trustee fee rate for the Portfolio Fund decreased by 0.005% to 0.04%.
- Effective September 6, 2017, the Portfolio Fund changed its investment objective and strategies to primarily invest in, or gain exposure to, equity and fixed income asset classes within specified ranges and/or other asset classes, through investment in Underlying Funds and/or directly in equity and/or fixed income securities.

Year-by-Year Returns

These bar charts show how much an investment in securities made on the first day of each financial year would have increased or decreased by the end of the respective period. For the first year of a series, the percentage shown will be the actual return of the series from its inception date. The charts illustrate how the Portfolio Fund's performance has changed over time.

¹ These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Portfolio Fund's audited annual financial statements and unaudited September 30, 2020 interim financial report presented in accordance with IFRS. Net asset values presented are consistent with the net asset values calculated in accordance with securities regulations for the purchase and redemption of the Portfolio Fund's securities (pricing net asset values) and as such, pricing net asset values are not separately disclosed.

² Commissions and other portfolio transaction costs are included in total expenses.

³ Net asset value and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the financial period. In the period a series is established, the financial information is provided from the date of inception to the end of the period.

⁴ Distributions were paid in cash, reinvested in additional securities of the Portfolio Fund, or both.

⁵ Management expense ratio (MER) is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes, and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where a Portfolio Fund directly or indirectly via derivative contract invests in securities of another fund (including exchange-traded funds or ETFs), the MERs presented for the Portfolio Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. Certain expenses that are non-recurring and/or otherwise uncertain as to their future timing and amount have not been annualized.

The MERs presented for Series C represent the maximum MER applicable to an account because service fee rebates have not been offset against service fees. Clients in Series C are entitled to a full or partial rebate of service fees based on their asset levels held in the Portfolio Fund and in other IG Wealth Management Funds as outlined in the Portfolio Fund's Prospectus. The rebate is distributed as a return of capital distribution to securityholders and is required to be reinvested in additional Series C securities.

⁶ The trading expense ratio (TER) represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where a Portfolio Fund invests in securities of another fund (including exchange-traded funds or ETFs), the TERs presented for the Portfolio Fund include the portion of TERs of the other fund(s) attributable to this investment.

⁷ The Portfolio Fund's portfolio turnover rate indicates how actively the Portfolio Fund's Portfolio Advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Portfolio Fund buying and selling all of the securities in its portfolio once in the course of the period. Generally, the higher a Portfolio Fund's portfolio turnover rate in a period, the greater the trading costs payable by it in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a Portfolio Fund. Transactions incurred to realign the Portfolio Fund's portfolio after a fund merger, if any, are excluded from the portfolio turnover rate. There were no such transactions related to the September 2017 merger.
