

## **Interim Management Report of Fund Performance**

*For the Six-Month Period Ended September 30, 2022*

*Investors Group Corporate Class Inc. has separate classes of securities and separate series of each class. Each class of securities represents a separate investment fund which has a separate portfolio of investments. The following report is for the above-named fund, which is one such class of Investors Group Corporate Class Inc.*

*This Interim Management Report of Fund Performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You may obtain a copy of the interim financial report or annual financial statements, at no cost, by calling 1-888-746-6344 (1-800-661-4578 if you live in Quebec) or by writing to us at 447 Portage Avenue, Winnipeg, Manitoba, R3B 3H5 (2001, boulevard Robert-Bourassa, bureau 2000, Montreal (Quebec), H3A 2A6 if you live in Quebec), or by visiting the SEDAR website at [www.sedar.com](http://www.sedar.com).*

*Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus, Annual Information Form and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.*

*For the Fund's current net asset values per security and for more recent information on general market events, please visit our website at [www.ig.ca](http://www.ig.ca).*

*References to "Consultant" or "Consultants" mean "Representative" or "Representatives" in Quebec.*

### **A NOTE ON FORWARD-LOOKING STATEMENTS**

*This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of manager to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.*

*The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.*

# IG MANAGED RISK PORTFOLIO CLASS – INCOME BALANCED

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2022

## Management Discussion of Fund Performance

November 14, 2022

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the Fund's performance and outlook in the six-month period ended September 30, 2022 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "IGIM" and "the Manager" refer to I.G. Investment Management, Ltd., the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read *A Note on Forward-Looking Statements* on the first page of this document.

## Results of Operations

### Investment Performance

In accordance with National Instrument 81-106, the following comparison to one or more market indices has been included to help you understand the Fund's performance relative to the general performance of the markets. However, the portfolio management team cautions that the Fund's mandate may be different from the index or indices shown. Also, it is important to note that investors cannot invest in an index. Indirect investments in an index are available; however, there are fees and transaction costs and other variables that will impact returns when investing in these products. Index returns included in the comparison below do not reflect these costs and variables. In addition, unlike the index, the Fund may be subject to valuation adjustments as the result of non-North American equities held by the Underlying Funds in which the Fund invests, as outlined in the Underlying Funds' valuation policies. A fair value adjustment can either positively or negatively impact the Fund's rate of return.

For the returns of all series and for longer-term performance of the Fund, see the *Past Performance* section of this report. Performance will vary by series primarily because fees and expenses may differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. See *Series Information* for the annual expense rates for each series.

For the six-month period ended September 30, 2022, the Series F (formerly Series U) securities returned -9.3% (after deducting fees and expenses paid by the Fund). In comparison, the FTSE Canada Universe Bond Index returned -5.2%, the FTSE World Broad Investment-Grade Bond Index (WorldBIG) returned -5.9%, the S&P/TSX Composite Index returned -14.4%, the S&P 500 Index returned -11.7% and the MSCI EAFE (Net) Index returned -14.3%.

Within the S&P/TSX Composite Index, consumer staples, consumer discretionary and energy were the strongest sectors, while health care, information technology and real estate were the weakest.

Within the S&P 500 Index, energy, utilities and health care were the strongest sectors in Canadian dollar terms, while communication services, information technology and real estate were the weakest.

Within the MSCI EAFE (Net) Index, Portugal, Finland and Hong Kong were the strongest-performing markets in Canadian dollar terms, while Austria, Germany and Sweden were the weakest. The energy, utilities and consumer staples sectors were the strongest performers, while information technology, communication services and materials were the weakest.

As at September 30, 2022, substantially all the net assets of the Fund were invested in IG Managed Risk Portfolio – Income Balanced (the Underlying Fund).

The Underlying Fund underperformed the FTSE Canada Universe Bond Index and the FTSE World Broad Investment-Grade Bond Index (WorldBIG) due in part to its exposure to equities. The Underlying Fund outperformed the S&P/TSX Composite Index, the S&P 500 Index and the MSCI EAFE (Net) Index due in part to its exposure to fixed income.

IG Mackenzie Real Property Fund, representing about 5% of net assets at period-end, contributed the most to the Underlying Fund's performance, and Mackenzie – IG Low Volatility Canadian Equity Pool, representing about 13% of net assets at period-end, detracted the most from the Underlying Fund's performance.

### Net Assets

The Fund's net assets decreased by 11.5% during the period to \$1.1 billion. This change was composed primarily of \$110.8 million in net losses (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and a decrease of \$25.9 million due to net securityholder activity (including sales, redemptions and cash distributions).

### Fees and Expenses

The annualized management expense ratio ("MER") for each series during the period ended September 30, 2022, was generally similar to the MER for the year ended March 31, 2022. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the *Financial Highlights* section of this report.

### Recent Developments

Canadian equities fell over the period, driven by rising interest rates and volatile commodity prices, while moderating economic indicators and expectations of higher interest rates put downward pressure on global equity markets. Volatility remained heightened across most Group of Ten (G10) fixed income markets. Both the U.S. Federal Reserve and the Bank of Canada increased their policy rates by 275 basis points, ending the period at 3.25%, while the European Central Bank raised its key policy rate by 125 basis points.

### Related Party Transactions

I.G. Investment Management, Ltd. is the Manager and Portfolio Advisor of the Fund. The Fund is offered through the Consultants of Investors Group Financial Services Inc. and Investors Group Securities Inc., together referred to as the Distributors. The Manager, Portfolio Advisor and Distributors are, indirectly, wholly owned subsidiaries of IGM Financial Inc.

The following sub-advisor provided investment services to the Fund:

- Mackenzie Financial Corporation

Mackenzie Financial Corporation is a wholly owned subsidiary of IGM Financial Inc.

The Fund paid a management fee to the Manager and Portfolio Advisor for management and portfolio advisory services (see *Management Fees*).

The Fund also paid the Manager an administration fee and in exchange the Manager paid the operating costs and expenses of the Fund, except for certain specified costs.

The Fund paid the Distributors a service fee as compensation for providing or arranging for the provision of services to the Fund, including the issue or allotment of securities.

See *Series Information* for the annual rates paid by each series (as a percentage of average net assets) for these fees.

Securityholders in Series F (formerly Series U) and Series FT (formerly Series Tu) also pay an advisory fee directly to the Distributors. This fee is not included in the Fund's expenses.

# IG MANAGED RISK PORTFOLIO CLASS – INCOME BALANCED

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2022

During the period, the Fund and Underlying Fund invested in other funds also managed by the Manager or affiliates of the Manager. The Manager relied on standing instructions approved by the IG Wealth Management Funds Independent Review Committee for the execution of all such transactions.

Investment, if any, in unlisted open-ended funds managed by the Manager and/or affiliates of the Manager will be in series that do not pay fees. The exchange-traded funds (ETFs) into which the Fund may invest may have their own fees and expenses which reduce the value of the ETF. Generally, the Manager has determined that fees paid by an ETF are not duplicative with the fees paid by the Fund and Underlying Fund. However, where the ETF is managed by Mackenzie Financial Corporation, the ETF may distribute a fee rebate to the Fund to offset fees paid within the ETF.

During the period, the Underlying Fund received \$336,489 in income distributions from investments in ETFs managed by the sub-advisor to offset fees paid within the ETFs. There is no assurance that these distributions will continue in the future.

## Past Performance

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Series Information*.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's unaudited interim financial statements and audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

## Management Fees

The Fund pays a management fee, and this fee, paid by each series, is calculated as a percentage of the net asset value of the series at the close of each business day (see *Series Information* for rates payable by each series). Generally, management fees pay the costs incurred to provide investment advisory and management services, as well as distribution-related services provided by the Distributors.

However, in the case of Series F and FT, securityholders pay the Distributors an advisory fee (separate from the management fee) directly. Therefore, the management fee in those series is used for investment advisory and management services only.

For all other retail series (i.e. those that exclude Series R, P and S, if issued), approximately 59% of management fees paid during the period was used for investment advisory and management services, and approximately 41% related to distribution-related services. This may vary by series.
