Distribution Policy

1. On page 39, under the heading “**Automatic reinvestment of Distributions for the iProfile Funds (All Series except Fixed Distribution Series)**”, by deleting all paragraphs in this section and replacing it with the following:

The iProfile Funds may earn dividend, interest or other income from their investments. The iProfile Funds may also realize capital gains when they sell investments at a profit. Distributions may be paid to you periodically (see *Distribution Rights* in *Part B: Specific Information about each of the mutual funds described in this document* for more information).

We automatically reinvest your Distributions unless you elect to receive those Distributions in cash. We use the Unit price for that Series on the day we reinvest the Distribution. When we pay Distributions to you in cash (in the currency of the account), we will have the money paid to the cash position of your account from which you can make a subsequent withdrawal.

You may request us to direct your Distributions to buy Units in a permitted Series of another IG Wealth Management Fund. Units acquired with reinvested Distributions are subject to the same fees and expenses that apply to other Units of the IG Wealth Management Fund purchased by you.

Please see *Income Tax Considerations* for more details.

iProfile™ Fixed Income Private Pool

-----------------------------------	---

2. On page 103, by removing the first sentence under the “Investment Strategies” section and replacing it with the following:

To achieve the Pool’s investment objective, the Portfolio Advisor allocates investments to a number of Mandates, some of which are separately advised by Sub-advisor(s) having a complementary management style.

3. On page 104, by adding the following to the “Investment Strategies” section immediately below the “High Yield Bond” sub-section:

Multi-Sector Fixed Income

- The Multi-Sector Fixed Income Mandate of the Pool invests up to 100% of its net assets in IG Manulife Strategic Income Fund (the “Underlying Fund”).
- The Sub-advisor for the Underlying Fund allocates assets based on analysis of economic factors such as projected international interest rate movements, industry cycles and political trends. Within each sector, securities are selected based on yield, credit quality, structure and industry distributions. In selecting securities, relative yields and risks/reward ratios are the primary considerations.

4. On page 105, by adding the following row under the “Major Events During the Last 10 Years” section:

Effective date	Event
