Distribution Policy of the Funds

1. On page 53, under the heading “**Automatic reinvestment of Distributions (all Series except Fixed Distribution Series)**”, by deleting all paragraphs in this section and replacing it with the following:

The Funds may earn dividend, interest or other income from their investments. The Funds may also realize capital gains when they sell investments at a profit. Distributions may be paid to you periodically (see *Distribution Rights in Part B: Specific Information about each of the mutual funds described in this document* for more information).

We automatically reinvest your Distributions unless you elect to receive those Distributions in cash. We use the Unit price for that Series on the day we reinvest the Distribution. When we pay Distributions to you in cash (in the currency of the account), we will have the money paid to the cash position of your account from which you can make a subsequent withdrawal. All Service Fee Refunds must be reinvested into the same Series.

If your investment is in IG Mackenzie Canadian Money Market Fund or IG Mackenzie U.S. Money Market Fund, your investment must be valued at least \$10,000 (in U.S. dollars for IG Mackenzie U.S. Money Market Fund) in order for Distributions to be paid out to you. In the case of IG Mackenzie U.S. Money Market Fund held in an account with Investors Group Securities Inc., distributions are paid out (assuming you have the minimum investment amount) only by cheque.

You may request us to direct your Distributions to buy Units in a permitted Series of another IG Wealth Management Fund. Units acquired with reinvested Distributions are subject to the same fees and expenses that apply to other Units of the IG Wealth Management Fund purchased by you.

Please see *Income Tax Considerations* for more details.
